

I am writing to urge you to stop Sinclair Broadcasting from requiring all of its stations to air a one-sided, anti-Kerry program just before the election.

It does not serve our democracy to have the public airways controlled by large companies. The public airways should be a place to express multiple views and to help inform the public, not a place where partisanship can get played out.

Please hold Sinclair accountable and stop them from airing programs to sway the upcoming election. This is illegal.

Thank You.
